

The National Awards for Constructing Excellence - 19th November 2010

Following successful of the regional awards in the North West, this award celebrated the best of Constructing Excellence nationally. They are designed to showcase the best and reward achievement by organisations and project teams that have achieved regional acclaim. In order to qualify for the awards the project team or organisation must have engaged with the Constructing Excellence agenda and adhered to the principles of best practice.

Blackpool Build Up were "Highly Commended" in the categories "Leadership & People Development Award"

Judges were looking for improvements resulting from leadership, training interventions, or an enlightened client. Entries showed respect to the workforce and local communities, while simultaneously winning respect from them through workforce development, skills and training, bench marking, equality and diversity, health and safety and working environment..

G4C

CONSTRUCTING EXCELLENCE

G4C Generation for Change

G4C is part of Constructing Excellence, and we share joint aims.

Following CE's lead in collaborative practice we seek to harness the power of the next generation from across the industry to drive change for the better, improving the way the industry functions and the subsequent asset outcomes it provides to society.

We are open to anyone looking to join the industry, or in the early stages of their careers within the built environment.

As a multi-disciplinary and proactive organisation, G4C aims to:

- Provide the tools for members to act on the change agenda
- Provide the multi-professional platform that represents the 'asset management' industry
- Be the voice that represents the next generation of industry leaders
- Facilitate and prompt the industry to 'structurally' change for the better
- Act as a shop window for potential industry entrants

There is a responsibility to G4C members to prepare them to be the leaders of the future by:

- Providing access to innovative industry thinking
- Providing opportunities to 'accelerate growth' beyond typical career paths
- Understanding the strategic development/future of the UK construction (asset management) industry
- Providing networking opportunities to form relationships with like minded high achieving peers and provide business opportunities

Our vision is to become the organisation that is the driving force for industry change, through the development and connection of the future industry leaders.

We will accelerate growth through securing G4C's future as a recognised industry force for positive change, with a definable brand, firm relationships with key

industry figures and access to the industry knowledge and resource that provides the foundation of the change agenda.

People

Attracting, effectively developing, connecting and retaining the necessary people required to drive the change

Sustainability

Equipping members with the necessary skills to drive the industry and wider society towards a sustainable future

Asset Outcomes

Supporting the industry's transformation from process driven to asset driven solutions aligned to client and wider society needs

The Industry Change Agenda

To become a member of G4C please email jenny.parker@constructingexcellence.org.uk with your name, organisation and contact details.

Members are also advised to register with the G4C online community; the place where they can access resource, discuss industry news and issues, share ideas and insights, form special interest groups, connect with like minded peers and hear about forthcoming G4C events.

To register please go to www.g4cnet.ning.com.

LEADERS 4 THE FUTURE

“Promoting the provision of undergraduate work opportunities in construction”

It's vital that the industry invests in its next generation of leaders, especially in the current market.

We're promoting the importance of providing undergraduate experience by recognising the efforts of those organisations that are already doing it.

Our 3 levels of accreditation (Bronze, Silver and Gold) highlight efforts being made in all forms across the industry and raise the profile of this issue.

We are building a database of companies worth approaching for undergraduate placements so that students can find work, and companies know where to find their future leaders – check us out on Facebook.

Company Benefits

- ✓ Recognition of best practice
- ✓ Development of culturally immersed leaders
- ✓ No 'resource/skills gap' in the future
- ✓ Robust relationships with key universities

Student Benefits

- ✓ A chance to find an undergraduate job
- ✓ Early exposure to our industry
- ✓ Structured training
- ✓ An opportunity to compound knowledge
